

I live in a rural area. I drive 28 miles one way to work. The radio reception is at best mediocre. When I am able to get a station it is always Hillbilly.{country western} I do not like this type of music. I love my x-fm radio. I now can listen to what ever I am in the mood to hear. I have even found out that I like some of the rap music. I don't always understand the words but I like the beat. Some days I listen to the comedy channels and I also enjoy the discovery channel. All in all if the regular radio stations would have better reception and play the music that people like they wouldn't have a problem. This was the best Christmas present that I have ever received. Just for the record I am a 60 year old woman, who grew up in the fifties and sixties and I love all types of music.
